1. This Office action is in response to the amendment filed February 18, 2005. Claims 42-73, 76-79, 83-99, and 102-104 are pending. Claims 74-75, 80-82 and 100-101 have been cancelled. Claims 43, 54-64, 76, 83-85, 87, and 93 have been amended; new claims 102-104 have been entered. The election of invention I and species I, without traverse, is confirmed. The claims directed to the non-elected inventions have been cancelled as requested.
2. Claims 42-73, 76-79, 83-99, and 102-104 are allowed.
3. The following is an examiner's statement of reasons for allowance: The claims recite a position detector using two members moveable relative to each other. A signal is coupled between an excitation winding and a sensor winding to determine position. Such a structure has been disclosed in previous inventions. The instant claims, however, recite the application of voltage pulses to the excitation winding such that the duration of the pulses is less than the decay time constant of the current loop formed by the excitation circuit and the excitation winding. Such a combination is not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Albert K. Wong whose telephone number is 571-272-3057. The examiner can normally be reached on M-Th.
